

## SAFETY DATA SHEET

## CO 4 %;N2 96 % in Minican

Issue Date: 18.06.2015  
Last revised date: 11.12.2015

Version: 1.0

SDS No.: 000010025011  
1 / 15

**SECTION 1: Identification of the substance / mixture and of the company / undertaking****1.1 Product identifier**

**Product name:** CO 4 %;N2 96 % in Minican

**1.2 Relevant identified uses of the substance or mixture and uses advised against**

**Identified uses:** Industrial and professional. Perform risk assessment prior to use.  
**Uses advised against** Consumer use.

**1.3 Details of the supplier of the safety data sheet****Supplier**

Linde Gas GmbH  
Carl-von-Linde-Platz 1  
A-4651 Stadl-Paura

**Telephone:** +43 50 4273**E-mail:** office@at.linde-gas.com

**1.4 Emergency telephone number:** Emergency number Linde: + 43 50 4273 (during business hours), Poisoning Information Center: +43 1 406 43 43

**SECTION 2: Hazards identification****2.1 Classification of the substance or mixture**

**Classification according to Directive 67/548/EEC or 1999/45/EC as amended.**

Repr. 1; R61 Xn; R20 Xn; R48/20

The full text for all R-phrases is displayed in section 16.

**Classification according to Regulation (EC) No 1272/2008 as amended.**

**Physical Hazards**

|                      |                |                                                           |
|----------------------|----------------|-----------------------------------------------------------|
| Gases under pressure | Compressed gas | H280: Contains gas under pressure; may explode if heated. |
|----------------------|----------------|-----------------------------------------------------------|

**Health Hazards**

|                                                    |             |                                                                          |
|----------------------------------------------------|-------------|--------------------------------------------------------------------------|
| Toxic to reproduction                              | Category 1A | H360D: May damage the unborn child.                                      |
| Specific Target Organ Toxicity - Repeated Exposure | Category 2  | H373: May cause damage to organs through prolonged or repeated exposure. |

# SAFETY DATA SHEET

## CO 4 %;N2 96 % in Minican

Issue Date: 18.06.2015  
Last revised date: 11.12.2015

Version: 1.0

SDS No.: 000010025011  
2 / 15

### 2.2 Label Elements

**Contains:** carbon monoxide

**Signal Words:** Danger

**Hazard Statement(s):**  
H280: Contains gas under pressure; may explode if heated.  
H360D: May damage the unborn child.  
H373: May cause damage to organs through prolonged or repeated exposure.

### Precautionary Statement

**Prevention:** P202: Do not handle until all safety precautions have been read and understood.  
P260: Do not breathe gas / vapors.

**Response:** P308+P313: IF exposed or concerned: Get medical advice / attention.

**Storage:** P403: Store in a well-ventilated place.

**Disposal:** None.

### Supplemental label information

Restricted to professional users.

**2.3 Other hazards:** None.

## SECTION 3: Composition / information on ingredients

### 3.2 Mixtures

| Chemical name   | Chemical formula | Concentration | CAS-No.   | EC No.    | REACH Registration No.                                                                        | Notes |
|-----------------|------------------|---------------|-----------|-----------|-----------------------------------------------------------------------------------------------|-------|
| carbon monoxide | CO               | 4%            | 630-08-0  | 211-128-3 | 01-2119480165-39                                                                              | #     |
| Nitrogen        | N2               | 96%           | 7727-37-9 | 231-783-9 | Listed in Annex IV / V of Regulation (EC) No 1907 / 2006 (REACH), exempted from registration. |       |

The concentrations of the components in the SDS header, product name on page one and in section 3.2 are in mol due to regulatory requirements. All concentrations are nominal.

# This substance has workplace exposure limit(s).

PBT: persistent, bioaccumulative and toxic substance.

vPvB: very persistent and very bioaccumulative substance.

| Nitrogen        | DSD:           | none                                                                                            |       |
|                 | CLP:           | Press. Gas Compr. Gas;H280                                                                      |       |

DSD: Directive 67/548/EEC.

CLP: Regulation No. 1272/2008.

The full text for all R-phrases and H-statements is displayed in section 16.

#### SECTION 4: First aid measures

**General:** Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Apply artificial respiration if breathing stopped.

##### 4.1 Description of first aid measures

**Inhalation:** Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Apply artificial respiration if breathing stopped.

**Eye contact:** Adverse effects not expected from this product.

**Skin Contact:** Adverse effects not expected from this product.

**Ingestion:** Ingestion is not considered a potential route of exposure.

**4.2 Most important symptoms and effects, both acute and delayed:** Danger of serious damage to health by prolonged exposure.

##### 4.3 Indication of any immediate medical attention and special treatment needed

**Hazards:** Danger of serious damage to health by prolonged exposure.

**Treatment:** Get immediate medical advice / attention.

#### SECTION 5: Firefighting measures

**General Fire Hazards:** Heat may cause the containers to explode.

##### 5.1 Extinguishing media

**Suitable extinguishing media:** Use water spray to reduce vapors or divert vapor cloud drift. Water. Dry powder. Foam. Carbon Dioxide.

## SAFETY DATA SHEET

## CO 4 %;N2 96 % in Minican

Issue Date: 18.06.2015

Version: 1.0

SDS No.: 000010025011

Last revised date: 11.12.2015

4 / 15

**Unsuitable extinguishing media:**

None.

**5.2 Special hazards arising from the substance or mixture:**

No data available.

**5.3 Advice for firefighters****Special fire fighting procedures:**

In case of fire: Stop leak if safe to do so. Keep run-off water out of sewers and water sources. Dike for water control. Continue water spray from protected position until container stays cool. Use extinguishants to contain the fire. Isolate the source of the fire or let it burn out.

**Special protective equipment for fire-fighters:**

Gas tight chemically protective clothing (Type 1) in combination with self contained breathing apparatus.  
Guideline: EN 943-2 Protective clothing against liquid and gaseous chemicals, aerosols and solid particles. Performance requirements for gas-tight (Type 1) chemical protective suits for emergency teams (ET)

**SECTION 6: Accidental release measures****6.1 Personal precautions, protective equipment and emergency procedures:**

Evacuate area. Provide adequate ventilation. Monitor the concentration of the released product. Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous. Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe. EN 137 Respiratory protective devices - Self-contained open-circuit compressed air breathing apparatus with full face mask - Requirements, testing, marking.

**6.2 Environmental Precautions:**

Prevent further leakage or spillage if safe to do so. Reduce vapour with fog or fine water spray. Keep run-off water out of sewers and water sources. Dike for water control.

**6.3 Methods and material for containment and cleaning up:**

Provide adequate ventilation.

**6.4 Reference to other sections:**

Refer to sections 8 and 13.

## SAFETY DATA SHEET

## CO 4 %;N2 96 % in Minican

Issue Date: 18.06.2015

Version: 1.0

SDS No.: 000010025011  
5 / 15

**SECTION 7: Handling and storage:****7.1 Precautions for safe handling:**

Only experienced and properly instructed persons should handle gases under pressure. Avoid exposure - obtain special instructions before use. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Installation of a cross purge assembly between the container and the regulator is recommended. Excess pressure must be vented through an appropriate scrubber system. Refer to supplier's handling instructions. The substance must be handled in accordance with good industrial hygiene and safety procedures. Protect containers from physical damage; do not drag, roll, slide or drop. Do not remove or deface labels provided by the supplier for the identification of the container contents. When moving containers, even for short distances, use appropriate equipment eg. trolley, hand truck, fork truck etc. Secure cylinders in an upright position at all times, close all valves when not in use. Provide adequate ventilation. Suck back of water into the container must be prevented. Do not allow backfeed into the container. Avoid suckback of water, acid and alkalis. Keep container below 50°C in a well ventilated place. Observe all regulations and local requirements regarding storage of containers. When using do not eat, drink or smoke. Store in accordance with local / regional / national / international regulations. Never use direct flame or electrical heating devices to raise the pressure of a container. Leave valve protection caps in place until the container has been secured against either a wall or bench or placed in a container stand and is ready for use. Damaged valves should be reported immediately to the supplier. Close container valve after each use and when empty, even if still connected to equipment. Never attempt to repair or modify container valves or safety relief devices. Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment. Keep container valve outlets clean and free from contaminants particularly oil and water. If user experiences any difficulty operating container valve discontinue use and contact supplier. Never attempt to transfer gases from one container to another. Container valve guards or caps should be in place.

**7.2 Conditions for safe storage, including any incompatibilities:**

Containers should not be stored in conditions likely to encourage corrosion. Keep away from food, drink and animal feeding stuffs. Stored containers should be periodically checked for general conditions and leakage. Container valve guards or caps should be in place. Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible material.

**7.3 Specific end use(s):**

None.

Issue Date: 18.06.2015  
Last revised date: 11.12.2015

Version: 1.0

SDS No.: 000010025011  
7 / 15

**Environmental exposure controls:** not applicable.

**SECTION 9: Physical and chemical properties****9.1 Information on basic physical and chemical properties****Appearance**

**Physical state:** Gas

**Form:** Compressed gas

**Color:** CO: Colorless  
N2: Colorless

**Odor:** CO: Odorless  
N2: Odorless gas

**Odor Threshold:** Odor threshold is subjective and is inadequate to warn of over exposure.

**pH:** not applicable.

**Melting Point:** No data available.

**Boiling Point:** No data available.

**Sublimation Point:** not applicable.

**Critical Temp. (°C):** No data available.

**Flash Point:** Not applicable to gases and gas mixtures.

**Evaporation Rate:** Not applicable to gases and gas mixtures.

**Flammability (solid, gas):** This product is not flammable.

**Flammability Limit - Upper (%):** not applicable.

**Flammability Limit - Lower (%):** not applicable.

**Vapor pressure:** No reliable data available.

**Vapor density (air=1):** 0,99 (calculated) (15 °C)

**Relative density:** No data available.

**Solubility(ies)**

**Solubility in Water:** No data available.

**Partition coefficient (n-octanol / water):** Not known.

**Autoignition Temperature:** not applicable.

**Decomposition Temperature:** Not known.

**Viscosity**

**Kinematic viscosity:** No data available.

**Dynamic viscosity:** No data available.

**Explosive properties:** Not applicable.

**Oxidizing properties:** not applicable.

**9.2 Other information:** None.

8 / 15

**SECTION 10: Stability and reactivity**

- 10.1 Reactivity:** No reactivity hazard other than the effects described in sub-section below.
- 10.2 Chemical Stability:** Stable under normal conditions.
- 10.3 Possibility of Hazardous Reactions:** No data available.
- 10.4 Conditions to Avoid:** Avoid moisture in the installation.
- 10.5 Incompatible Materials:** Moisture. For material compatibility see latest version of ISO-11114.
- 10.6 Hazardous Decomposition Products:** Under normal conditions of storage and use, hazardous decomposition products should not be produced.

**SECTION 11: Toxicological information**

**General information:** Carbon monoxide: Has been shown to produce adverse effects to the cardiovascular, central nervous, and reproductive systems in laboratory animals and chronically exposed humans.

**11.1 Information on toxicological effects**

**Acute toxicity - Oral Product** Based on available data, the classification criteria are not met.

**Acute toxicity - Dermal Product** Based on available data, the classification criteria are not met.

**Acute toxicity - Inhalation Product** ATEmix (4 h): > 20000 ppm

**Component Information**  
carbon monoxide LC 50 (Rat, 4 h): 1300 ppm  
LC 50 (Rat, 1 h): 3760 ppm

**Repeated dose toxicity Component Information**  
carbon monoxide LOAEC (Rat, Inhalation): 200 ppm (Target Organ(s): Respiratory system)

**Skin Corrosion / Irritation Product** Based on available data, the classification criteria are not met.

## SAFETY DATA SHEET

## CO 4 %;N2 96 % in Minican

Last revised date: 11.12.2015

Version: 1.0

SDS No.: 000010025011  
9 / 15

**Component Information**

carbon monoxide Not classified as an irritant.

**Serious Eye Damage / Eye Irritation**

**Product** Based on available data, the classification criteria are not met.

**Component Information**

carbon monoxide Not classified as an irritant.

**Respiratory or Skin Sensitization**

**Product** Based on available data, the classification criteria are not met.

**Component Information**

carbon monoxide No known effects from this product.

**Germ Cell Mutagenicity**

**Product** Based on available data, the classification criteria are not met.

**Component Information**

carbon monoxide There is no evidence of mutagenic potential.

**Carcinogenicity**

**Product** Based on available data, the classification criteria are not met.

**Component Information**

carbon monoxide No evidence of carcinogenic effects.

**Reproductive toxicity**

**Product** May damage fertility or the unborn child.

**Component Information**

carbon monoxide May damage fertility or the unborn child.

**Reproductive toxicity (Fertility)****Component Information**

carbon monoxide NOAEC (embryotoxicity): 65 ppm

## SAFETY DATA SHEET

## CO 4 %;N2 96 % in Minican

Issue Date: 18.06.2015  
Last revised date: 11.12.2015

Version: 1.0

SDS No.: 000010025011  
10 / 15

**Developmental toxicity (Teratogenicity)****Component Information**

carbon monoxide LOAEC: 125 ppm

**Specific Target Organ Toxicity - Single Exposure****Product**

Based on available data, the classification criteria are not met.

**Component Information**

carbon monoxide  
Route of Exposure: Inhalation  
Target Organ(s): Blood  
Causes damage to red blood cells (haemolytic poison). Carbon monoxide binds reversibly to haemoglobin (Hb) to form carboxyhaemoglobin (CoHb), reducing the capacity of the blood to transport oxygen.

**Specific Target Organ Toxicity - Repeated Exposure****Product**

May cause damage to organs through prolonged or repeated exposure.

**Component Information**

carbon monoxide  
Route of Exposure: Inhalation  
Target Organ(s): Heart  
Risk of serious health injuries in case of long term exposure.

**Aspiration Hazard****Product**

Not applicable to gases and gas mixtures..

**SECTION 12: Ecological information****12.1 Toxicity****Acute toxicity****Product**

No ecological damage caused by this product.

**12.2 Persistence and Degradability****Product**

Not applicable to gases and gas mixtures..

**Component Information**

carbon monoxide Will not undergo hydrolysis.

**Biodegradation****Component Information**

carbon monoxide Not readily biodegradable. Inorganic compound.

**SAFETY DATA SHEET**  
**CO 4 %;N2 96 % in Minican**

Issue Date: 18.06.2015  
Last revised date: 11.12.2015

Version: 1.0

11 / 15

**12.3 Bioaccumulative Potential**  
**Product**

The product is expected to biodegrade and is not expected to persist for long periods in an aquatic environment.

**Component Information**  
carbon monoxide

Because of the low log Kow, accumulation in organisms is not expected.

**12.4 Mobility in Soil**  
**Product**

Because of its high volatility, the product is unlikely to cause ground or water pollution.

**Component Information**  
carbon monoxide

Because of its high volatility, the product is unlikely to cause ground or water pollution.

**12.5 Results of PBT and vPvB**  
**assessment**  
**Product**

Not classified as PBT or vPvB.

**12.6 Other Adverse Effects:**

**Global Warming Potential**

Global warming potential: 0  
Contains greenhouse gas(es) not covered by 842 / 2006 / EC. When discharged in large quantities may contribute to the greenhouse effect.

**Component Information**  
carbon monoxide

Global warming potential: 1,9

**SECTION 13: Disposal considerations**

**13.1 Waste treatment methods**

**General information:**

Avoid discharges to atmosphere. Consult supplier for specific recommendations.

**Disposal methods:**

Refer to the EIGA code of practice (Doc.30 "Disposal of Gases", downloadable at <http://www.eiga.org>) for more guidance on suitable disposal methods. Dispose of container via supplier only. Discharge, treatment, or disposal may be subject to national, state, or local laws.

**European Waste Codes**

**Container:**

16 05 04\*: Gases in pressure containers (including halons) containing dangerous substances.

## SAFETY DATA SHEET

## CO 4 %;N2 96 % in Minican

Issue Date: 18.06.2015  
Last revised date: 11.12.2015

Version: 1.0

SDS No.: 000010025011  
14 / 15

**National Regulations**

Council Directive 89 / 391 / EEC on the introduction of measures to encourage improvements in the safety and health of workers at work Directive 89 / 686 / EEC on personal protective equipment Only products that comply with the food regulations (EC) No. 1333 / 2008 and (EU) No. 231 / 2012 and are labelled as such may be used as food additives.

This Safety Data Sheet has been produced to comply with Regulation (EU) 453 / 2010.

**15.2 Chemical safety assessment:** No Chemical Safety Assessment has been carried out.

**SECTION 16: Other information**

**Revision Information:** Not relevant.

**Key literature references and sources for data:**

Various sources of data have been used in the compilation of this SDS, they include but are not exclusive to:

Agency for Toxic Substances and Diseases Registry (ATSDR)  
(<http://www.atsdr.cdc.gov/>).

**Wording of the R-phrases and H-statements in section 2 and 3**

|          |                                                                                       |
|----------|---------------------------------------------------------------------------------------|
| H220     | Extremely flammable gas.                                                              |
| H280     | Contains gas under pressure; may explode if heated.                                   |
| H331     | Toxic if inhaled.                                                                     |
| H360D    | May damage the unborn child.                                                          |
| H372     | Causes damage to organs through prolonged or repeated exposure.                       |
| H373     | May cause damage to organs through prolonged or repeated exposure.                    |
| R12      | Extremely flammable.                                                                  |
| R20      | Harmful by inhalation.                                                                |
| R23      | Toxic by inhalation.                                                                  |
| R48 / 20 | Harmful: danger of serious damage to health by prolonged exposure through inhalation. |
| R48 / 23 | Toxic: danger of serious damage to health by prolonged exposure through inhalation.   |
| R61      | May cause harm to the unborn child.                                                   |

**Training information:** Users of breathing apparatus must be trained. Ensure operators understand the toxicity hazard.

**Classification according to Regulation (EC) No 1272 / 2008 as amended.**

Repr. 1A, H360D  
STOT RE 2, H373  
Press. Gas Compr. Gas, H280

**Other information:** Before using this product in any new process or experiment, a thorough material compatibility and safety study should be carried out. Ensure adequate air ventilation. Ensure all national / local regulations are observed. Whilst proper care has been taken in the preparation of this document, no liability for injury or damage resulting from its use can be accepted.
